---

Dear Mr. Turner,

I am an immigration attorney located in California. I am writing to you regarding certification of an investment site for my client's EB-5 immigrant investment visa.

The investment site is located at: **11011 S Wilcrest Drive, Houston, TX 77099**. The corresponding **census tract number is 4533** (See the attached search result of tract number through ArcGis map link provided on Houston's official website). Official website of Harris County, where Houston is located in, also provided a list of 101 individual census tracts within the Harris County, that have been identified as Targeted Employment Area (TEA). For your reference, I have also attached the said verified list to this email. At the bottom of page 3 of the verified list, Tract 4533 is listed as a Targeted Employment Area.

I contacted Ms. Judit Haracsek with Harris County and was informed that since our investment site is located within Houston's boundary and Houston is listed as a taxing jurisdiction for the address, I should contact City of Houston regarding certification.

The Office of the Governor (see attached EB5 Gov Rick Perry Letter) provides guidance regarding certification responsibilities of Targeted Employment Area. According to the Office of the Governor, As the chief elected official in each locality, the mayor or county judge, is responsible for designating TEAs in their jurisdictions. Could your office please kindly review the documents and provide a certification for the above listed address as TEA?

Thank you very much for your courtesy.

Sincerely,

Yanyan Yan, *Esq*.
